# Wastewater Consultants

## ON-SITE WASTEWATER TREATMENT SYSTEM SERVICING & MAINTENANCE

Wastewater Consultants specialise in and carry out domestic, industrial and commercial servicing and maintenance throughout North Queensland, Wastewater Consultants have experienced staff that are qualified and accredited to service all type and brands of wastewater treatment and recycling systems.

### **Comprehensive servicing & maintenance**

Wastewater Consultants currently service over 2000 systems per year and have developed a computer generated program that flags servicing throughout the regions ensuring all systems are serviced within the specified time-frames, Wastewater Consultants also service a large number of commercial treatment systems that require test samples to be analysed and reported on, these systems require compliance with the EPA.

The local laboratory we engage are NATA - accredited and fully independent, giving you and ourselves consistent and reliable results everytime.

### **Common systems we service**

- ◆ Domestic and residential dwellings, duplex's, villages and multi unit complexes
- ◆ Primary schools, high schools and police stations
- ◆ Caravan parks, motor home parks, camping grounds and and roadhouses
- ◆ Mine sites & environmental centres
